# Dedication

We, the class of 1951, dedicate this edition of THE TIGER to our Alma Mater, St. Paul's Polytechnic Institute. She has instilled in us an abiding faith and ideals of character.

Since institutions are often just the lengthened shadows of men, any tribute to the school is also a tribute to its founder, James Solomon Russell, whose adventure in faith made this school possible; to our ex-president, James Alvin Russell, who carried forward his work; and to our present president, Earl Hampton McClenney Sr., who is now guiding the destiny of St. Paul's.

May the school continue to grow and direct others as she has directed us.

TO THE MEMBERS OF THE 1951 GRADUATING CLASS

My dear friends: .

Certainly congratulations are in order for the very splendid work you have done in producing this yearbook. In producing this book, you have made it possible for some of the activities you have experienced here at Saint Paul's to become a living record for those who follow you.

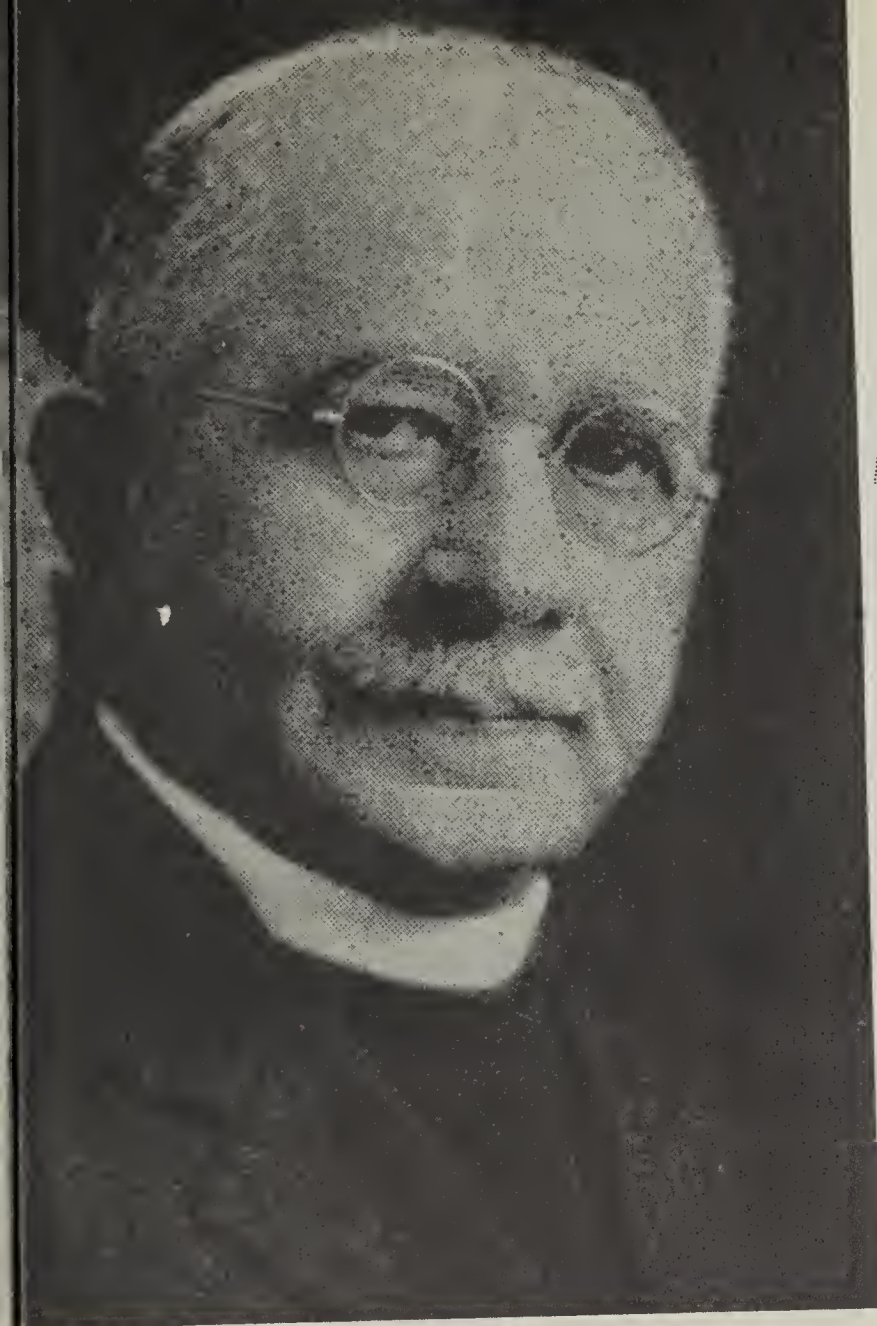

You are the first class, at Saint Paul's, I have had the opportunity to live with for one full academic year. Naturally, I have a very warm feeling for each one of you. As you leave these sacred grounds and enter upon the "sea of life," be sure you give to the world the best that you have in order for the best to come to you.

With best wishes for your success, I am

Cordially your friend,

*Earl H. McClenney*

# *Reminiscence*

In September 1947, 226 Freshmen glided into Lawrenceville, Virginia seeking St. Paul's Campus. We, who had been "tops," the dignified Seniors in our high schools; were now relegated to the bottom among the old St. Paulites. We appeared as green as the hills of St. Paul's campus in the Spring. Well, we were all green; but bravely and cheerfully we submitted to the gruesome initiation and other steps necessary for becoming a part of the St. Paul's family.

After enrolling in our various and sundry fields, we strove hard to make the necessary adjustments. We all enjoyed that first course in religion because here we had an opportunity to express our thoughts about spiritual matters.

Many thrilling social events enlivened our Freshman year. Among these was a series of recitals that developed in us a greater appreciation for classical and semi-classical entertainments. Our football team was far from successful, but the Varsity Prom was a real treat. We were happy to have our class represented on the team and as guests at the Prom.

Among the historical events of our first year was the ground-breaking for two buildings: The James Solomon Russell Refectory and the new Trades Building. In the Spring, we witnessed the celebration of the sixtieth anniversary of the school.

Although the members of the class participated in all areas of campus activities, they did not neglect their academic work. At the end of the school year, we were rather proud of our achievement.

When we came back to the green hills of St. Paul's in September of 1948, we were happy to be recognized as familiar to St. Paulites. Even though we had lost several of our members, the class was still able to carry on.

Our homecoming game was lost, but the day was still gay because of the hearty greetings of visiting St. Paulites and the colorful homecoming dance.

Gratified at our success in completing the first half of our work here, we faced the Junior year with high hopes. Making the Junior-Senior Prom a beautiful and enjoyable affair was the big job for this year. On the basis of favorable comments from those who attended, we feel that this job was well done. How can we forget the beautiful strains of music from the orchestra, and the "oh so unique" water fountain!

Finally, after three years of "stewing and seasoning" in and around St. Paul's classrooms and campus, we, the Seniors, have acquired that sign of dignity that is deemed necessary to success.

Many of our former classmates have dropped out or changed schools leaving only 124 dignified Seniors. Since our President, Ernest Stokes did not return for the Senior year, Edgar Young succeeded him in office.

The inauguration of our third President, Mr. Earl Hampton McClenney, Sr., took place on October 12, 1950. We were proud to participate in this affair and to aid in serving the buffet style lunch in the James Solomon Russell Refectory.

We are grateful to our parents and to all who have made it possible for us to receive the training which has prepared us to share the responsibilities of society.

As we see the New Trades Building and Refectory nearing completion, and witness the other improvements that have come over this four-year period, we feel proud to be a part of St. Paul's. Likewise, we are happy to boast of the fact that we will be the first class to graduate since the school has been approved by the Southern Association of Secondary Schools and Colleges.

We shall leave St. Paul's determined that our lives will be successful because they will be based on high thoughts and noble deeds.

# Prophecy

The crystal ball reveals what our classmates will be doing 10 years from now:

James Ford, D.D., LL.D., has been awarded the Nobel Peace Prize because he has succeeded in establishing world fellowship.

Elizabeth Blount, Eura Hudgins, Carrie Jones, Virginia Smith and Jean Morton were presented in a choral recital at the internationally famous Clidas Hicks School of New York City. This beautiful edifice was built by John R. Jackson in honor of his beloved wife, Clidas.

Parthenia Fowlkes expert nutritionist, and John Parker and William Cannady, of the physical education department, have increased man's life span by ten years.

Araminta Howell, Fannie Lambert, Lucy Gordon, Susie Brooks, and Vivian Branch are proprietors of a finishing school. Only the wealthy need apply.

Jesse Williams is disturbed because Catherine Inge and Dolores Coleman are teaching students to compute faster than the mechanical brain which he has invented.

All people are excited over the "Jetmobile" trips to the moon. The Jetmobile, invented by James Jenkins, George Hamm, Delmas Beckett, Randolph Jackson, and Paul Jones, is piloted by George Brooks, and serviced regularly by Daniel Tucker and Sons, Inc.

Alease Booker, Nola Jackson, Maudy Mays and Anthony Farmer are famous because they have discovered the "Royal Road to Learning."

The noted Social worker, Dr. Beulah Cardwell, has received the Calvin H. Finlay Award for her work in preventing juvenile delinquency. Her assistants are Ruby Watkins and Liller White.

Almeda Thompson, Maggie Amis, and Lucy Hendricks are studying dress designing in Paris.

Dorothy Gilmore, Myrtle Ferguson, and Elaine Burton are stylists for the Deluxe Clothing Shop of Hiawatha Windley and Sons, Inc. Working as Mannequins are Louise Spraggs, Myrtle Dabney, Frances Hanable and Melvin Williams.

Cesar J. Young and James Terrell are owners of the famous chain of "Cut and Curl" barber shops. Their Secretaries are Madge Green and Helena Mays.

Richard Tucker, Delcia Bell, Alma Hughes, Sara Dashiell, Joe Easley and Ruth Elam have received their Ph. D's. Dr. Joe Easley is Dean of Education at Lincoln University in Pennsylvania. The President of that college is Titus Ricks.

Lucy Wilks, Sophia Faison, Helen Ghee, Emma Hill, Rosa L. Jones, and Eliza Ruffin are running an international nursery school in Montgomery, Alabama. The U.N. has praised their work.

Helen Spencer is Secretary to James Harris, Senator from Mississippi. The ex-Senator of Virginia is Bertha Grant.

Viola Smith, Minerva Rice, Florence Taylor, and Marlon Edmonds have just reserved space on the "Jetmobile" to the moon. It is not certain whether their major interest is the business opportunity there or the occupation troop, the men on the moon.

James Evans and Christopher Griffin are investigating the possibilities of an inter-planetary communication system. Long distance to Mars please!

No man in America is well dressed unless he wears clothes made and designed by the Esquire Company owned and controlled by Foye, Cherry, Goodrich and Manson. These creations may be obtained through the swanky shop of William Harrod. Sylvia Weeks is his cashier.

Norman Jubilee and James Grey are instructors of tailoring at Bradley University.

At last a device has been invented to send electricity through the air without the use of wire. This device came from the collective minds of Edgar Young, Joseph Mitchell and Jesse Jones.

Jacob Dabney and James Stith are building apartment houses for disabled veterans.

Some of our classmates chose army careers. We see General B. Frank Boyd, Major Rudolph Diggs, Colonel Charles Drummond, Lieutenant Percy Artis, Major General H. C. Macklin and Major John Andrews.

Henry Boyd and Wallace Newman have organized "The Boyd-Newman Construction Company." They are remodeling the White House and the Capitol. Their foremen are Richard Spellman, James Nobels and Clifton Fitzgerald.

Having denounced the world, Dorothy Tucker is now Mother Superior at St. Catherine Convent. Following her example Mildred Ellis and Annie Ross have taken the holy orders.

Walter Porter, Frank Smith and Harold Redd have become Friars at Graymoon Garrison. Frank is working on a new translation of the Bible.

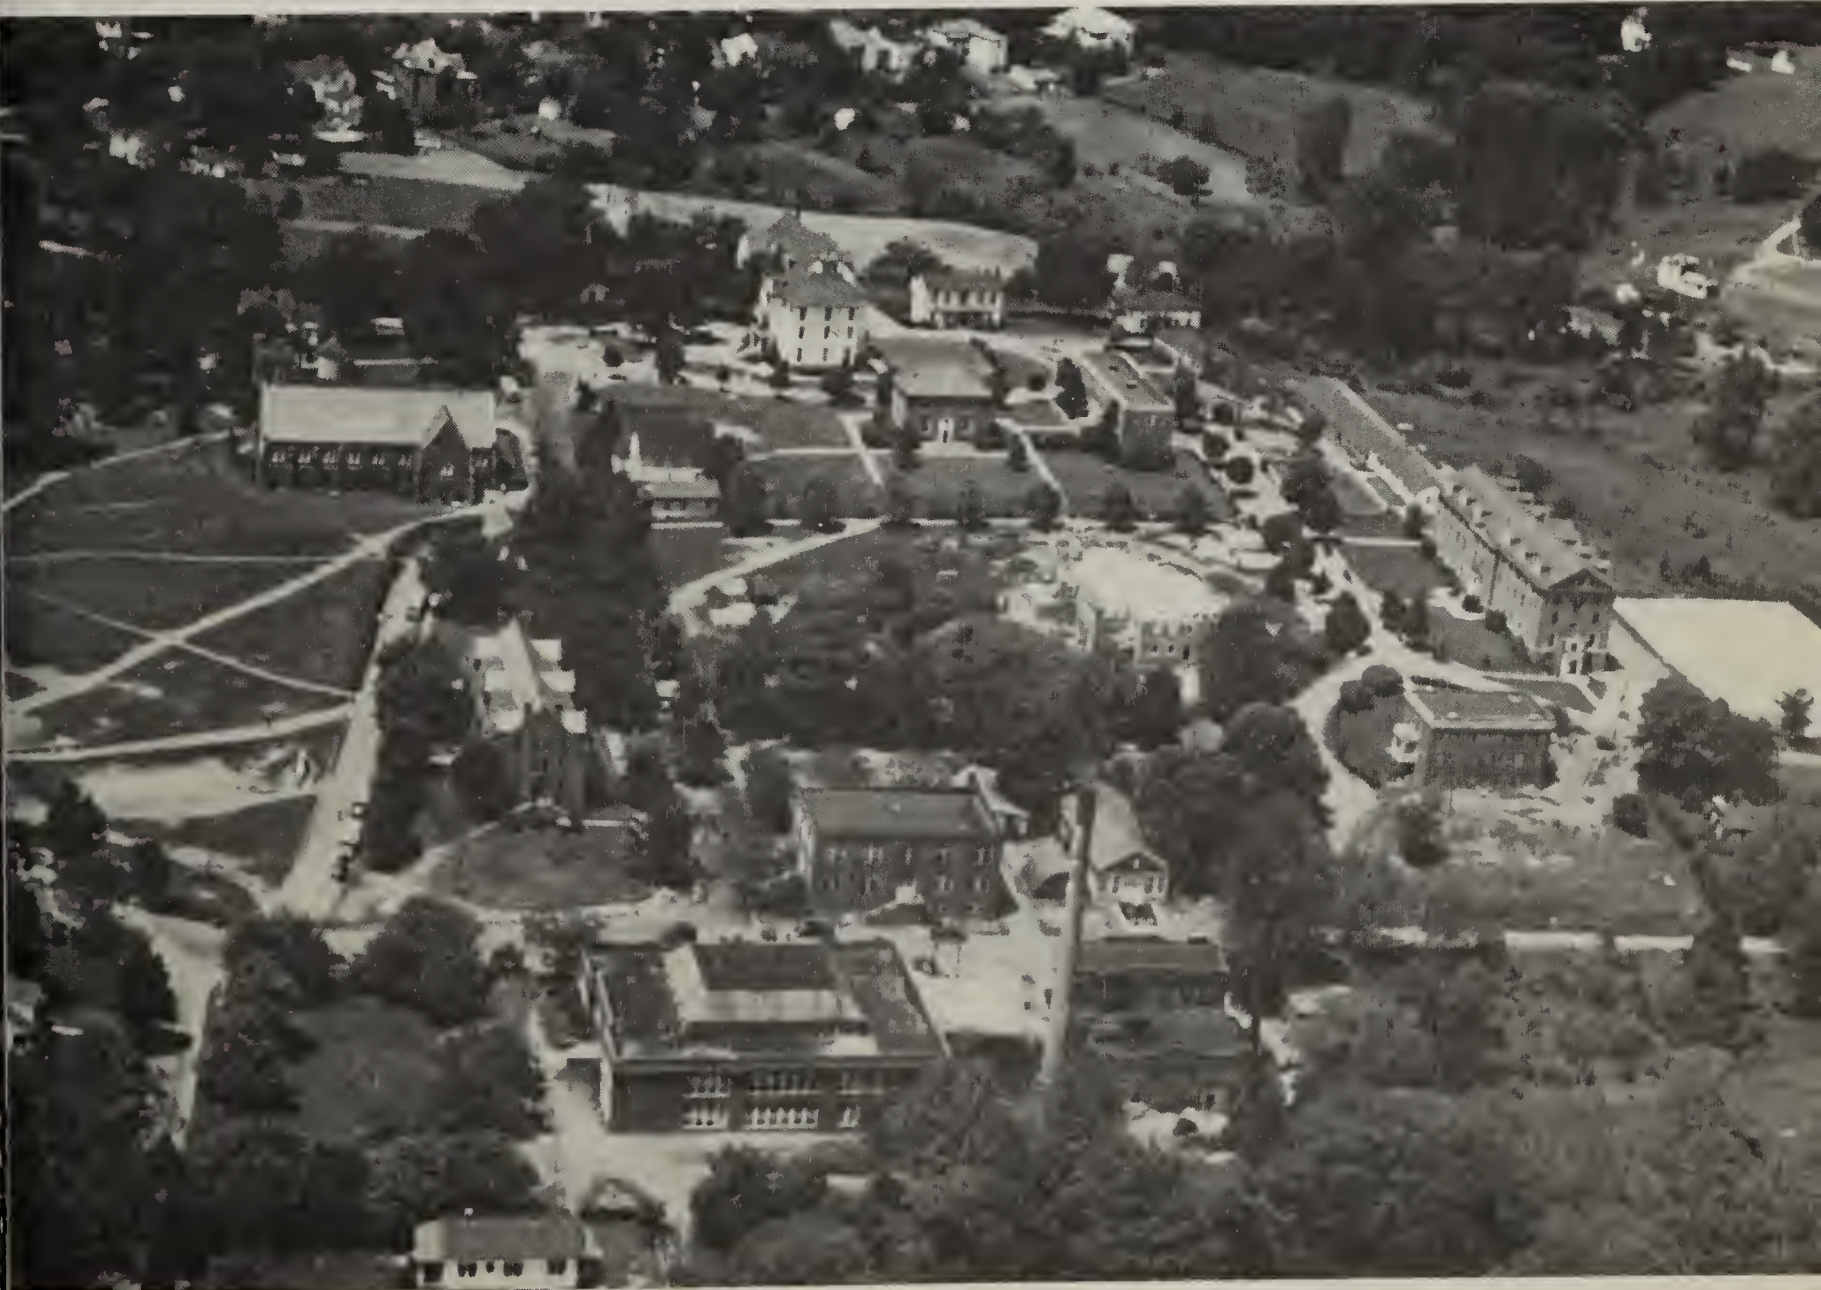

Among our class mates are several doctors. Dr. Gilbert Mays is President of the American Medical Association. Dr. Thomas Jones has just produced a medicine which is more powerful than Hadacol. Dr. Lewis Isabell is resident Physician at St. Paul's Polytechnic Institute.

William Brown, William Holliday, Charles Dortch, Eugene Walton, and Prince Parham are studying at Harvard University.

Due to the well grounded fundamentals in Elementary Education received at St. Paul's Elizabeth Jones, Luezear Coleman, Alvin Walker and Viola Stith, have established a school that produces geniuses from feeble minded students.
